Entry Level Data Engineer

WORK EXPERIENCE

Resume Worded, New York, NY

Entry Level Data Engineer

01/2015 – Present

- Evaluated the workflow and efficiency of data pipelines that process 140+ GB of data daily.
- Assisted in creating a data pipeline using Delta Lake, leading to process optimization and a 47% increase in annual revenue.
- Resolved an ETL issue per PL/SQL best practices, increasing the company's client base by 85%.
- Co-developed an SQL server database system to maximize performance benefits for 6600+ customers.

Growthsi, San Francisco, CA

SQL Programmer

06/2010 – 12/2014

- Designed and tested SQL-driven applications from the ground up and generated solutions for 120+ real-world problems.
- Reorganized a codebase with 2200+ lines of spaghetti code and crappy OOP using SOLID principles.

VOLUNTEERING ACTIVITIES AND EXTRACURRICULARS

Resume Worded's Business Society, New York, NY

Desktop Support Engineer

06/2009 – 04/2010

- Resolved network, hardware, software, and 80+ other service-related issues.
- Identified and fixed the root cause of system performance issues that slowed processing time from 10+ seconds to 60 seconds.

PROJECTS

Creating Resilient Databases

05/2009

- Developed 20+ scalable databases capable of ETL processes using SQL and Spark.
- Created NoSQL databases that harvest data from 150+ sources using MongoDB.

Cloud Transactions Revisited

04/2009

- Reengineered a server application with transaction processing functionality to handle 10K simultaneous client requests.
- Developed queries and shell scripts that enable field teams to view performance data on 20+ mobile devices.
